

1. Blubber is used to keep animals warm. What other animals, besides whales, do you think have blubber? Circle the animals you think have blubber.

Polar Bear

Penguin

Chicken

Seal

Lion

Walrus

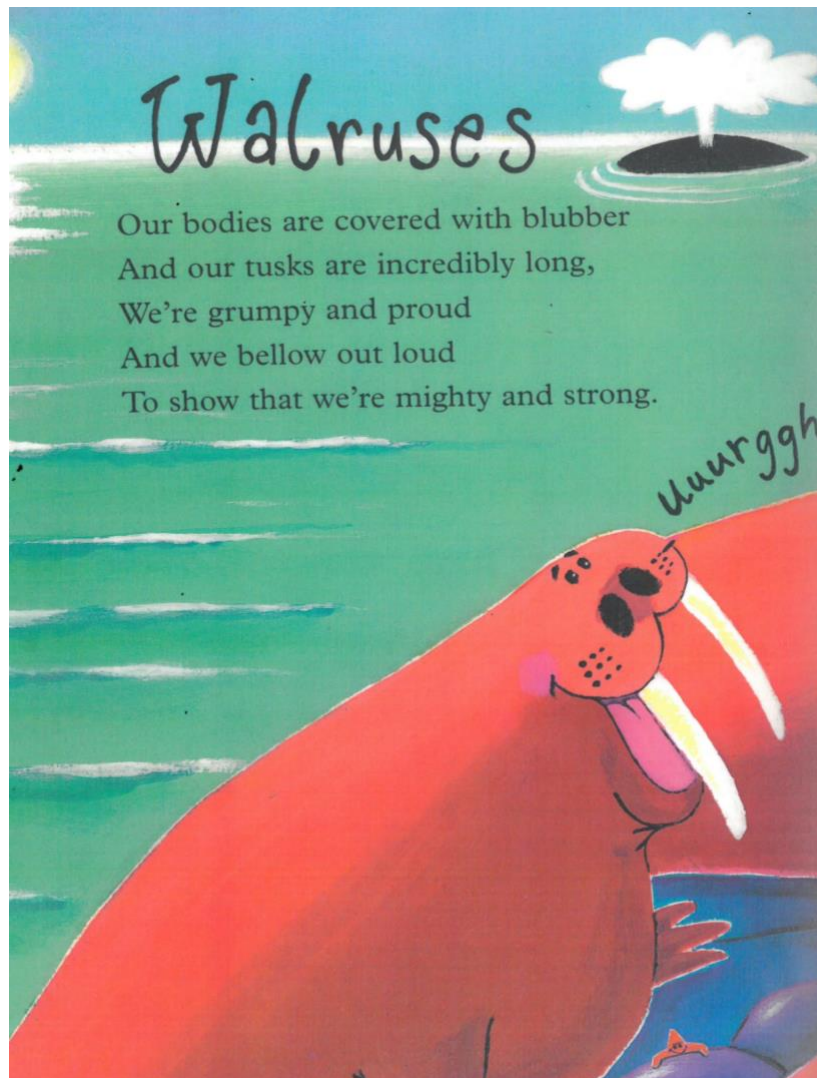

Sea Lion

Beluga

2. A walrus is another marine mammal that uses blubber to keep itself warm. If you circled the walrus, great job!

Read this poem from "Commotion in the Ocean" about Walruses and write down three things you learned about them.

1.

2.

3.

3. Humans do not have blubber, so we have to get creative when it comes to keeping ourselves warm. What are some ways that you keep yourself warm when it is cold outside or if you go into cold water? Write down at least three things you do to stay warm and draw a picture next to each.

| <i>Write</i> | <i>Draw</i> |
|--------------|-------------|
| 1 | |
| 2 | |
| 3 | |

4. If you could be ANY blubbery ocean animal, which one would you be?
Would you be a walrus? Would you be a blue whale? A dolphin? Or a seal?

Draw the animal you choose and write a short story about your day. How did blubber help you survive?
